Marty and Brian,

Respectfully, while the closure idea is something that has been proposed from time to time, the community at large (including area residents and businesses) would need to demonstrate to us that there is across-the-board support for such a measure. To date, we have not seen evidence of that kind of support.

We are working on various other ways to improve the status quo on this stretch of Hollywood Boulevard, in terms of visitor experience, public safety, pedestrian/traffic safety, etc. I'm happy to fill you in with more details.

We are happy to continue to work together to make Hollywood a world-class neighborhood and destination, so please let me know if you have any questions.

Thanks,

**Dan Halden**

I think it would be appropriate for the Chamber to take the lead on convening such a meeting and including all stakeholders including (but not limited to) residents, businesses, neighborhood councils, schools, police department, fire department, sheriffs, transportation entities, City Attorney, etc.

It has always been the CM's position to seek the pulse of what the community truly wants and envisions for Hollywood Boulevard.

Thank you all for engaging in this dialogue.

Best Regards,
